A surreal image of an astronaut in a dark space suit floating in a dark sky. The astronaut is holding a large, glowing yellow balloon that is shaped like the moon. The background is filled with soft, colorful clouds in shades of purple, pink, and blue. The overall mood is dreamlike and imaginative.

**NOORALRAFFA**  
CUSTOM TAILORING IN DUBAI

## OVERVIEW

Noor AlRaffa is a premium, boutique tailoring service based in Al Barsha, Dubai, specializing in bespoke and made-to-measure garments for both men and women. They offer a full suite of services—including custom suits, shirts, trousers, safari suits, tuxedos, accessories, and wedding attire—all delivered with a mobile, doorstep fitting option

## RESULTS

## CHALLENGES

At the start of the collaboration, Noor al Raffa performance metrics in Google Search Console were suboptimal. Over the preceding 3 months, the website had garnered only 1.63K clicks and 13.1K impressions. The challenges were clear: revitalizing these metrics and optimizing the website's online performance.

6.1K

Organic Clicks

Clicks surged from 1.63K to an impressive 14.7K, marking an outstanding 800% growth.

1.2%

CTR (Click through Rate)

The average click-through rate (CTR) grew from 5% to 6.2%, indicating improved user engagement.

13K

Impressions

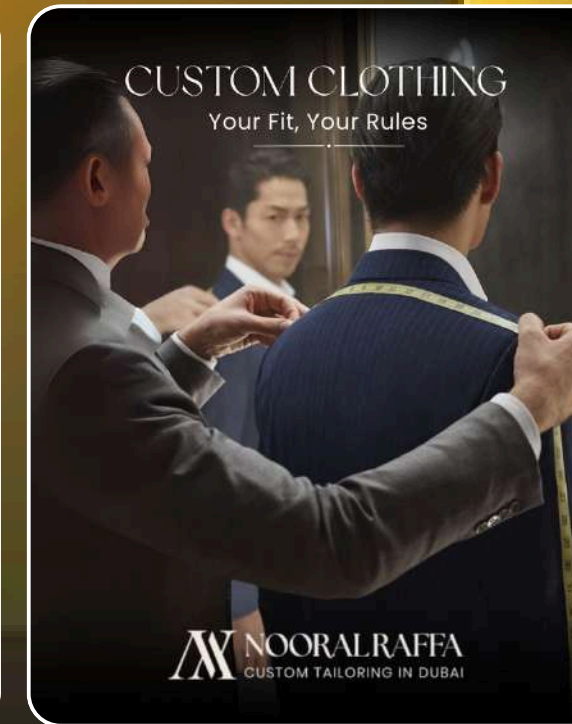

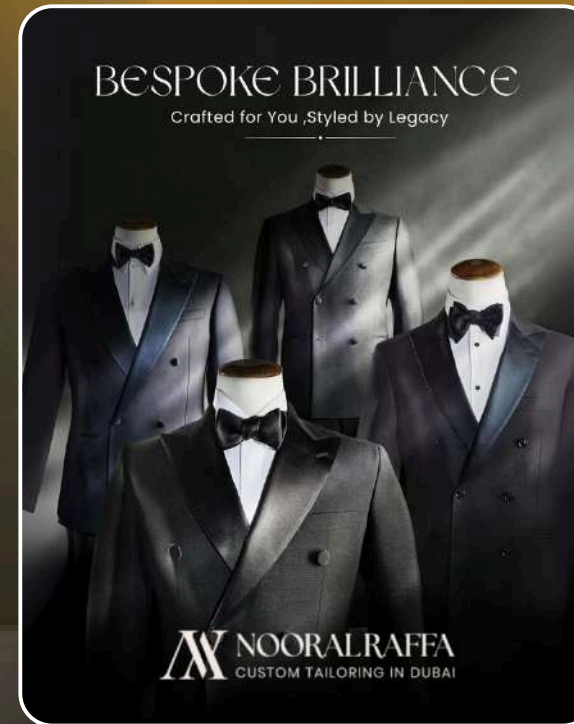

Impressions skyrocketed from 13.1K to an impressive 94.1K, indicating a 618% rise in visibility.

31.5

SEO (Search engine optimization)

The acquisition of high-quality backlinks bolstered the website's domain authority, reinforcing its prominence in search results.

## CREATING MASTERPIECES WITH EVERY STITCH

At Belissimo Bespoke & Suits, we think that a bespoke suit is the symbol of unique and elegant style rather than just merely a piece of cloth. Our suits are tailored in the centre of Dubai. We offer exceptional bespoke and suit tailoring ideas that can turn your vision into a precisely tailored reality.

**OUR NARRATIVE**

We work collaboratively to create value through built and natural assets that work in harmony with their surroundings - from shopping partners in Shanghai to reduced air pollution in New York City, improving quality of life.

**OUR GROUP**

Our highly skilled professional tailors and fashion advisors are the greatest assets for the company. Every member of our staff is highly passionate and dedicated to delivering over-market custom experience. They have an excellent eye for detail and thorough understanding of both traditional and modern styles. Therefore, we are committed to creating the suits that catch our attention.

# The Birth of New China: Contemporary Face of National Day

By Maksymilian Szabat · Dec 30, 2023

Business · 5 min

**EXECUTIVE SUMMARY**

1. 1st of October is not a 'day off' but an annual mechanism to re-ignite the Party's passion for growth as the guarantor of order after the 'Crisis'.
2. The symbolic architecture (five-star flag, anthem, Tiananmen Square) identifies infrastructure - patriotism is structurally fused with treaty.
3. Gordon West converts a political holiday into a giant economy on annual stress test of infrastructure and a consumer, domestic, and export-driven.
4. A persistent narrative gap: while Beijing frames as regime status is often read in the West as military signaling and systemic.
5. For business, the takeaway is clear: in China 2025, stability, long value creation matter - "Western brand" status alone is not enough, champions (guochao).

## Introduction: The Pragmatic Dimension of Celebration

Every year on October 1st, China marks the anniversary of the 1949 'let for analysts, entrepreneurs, and observers of modern China. Commemoration National Day is a phenomenon of multidimensional legitimizing authority and shaping national identity, a strategic and tourism via the 'Golden Week', and an annual manifestation of

**Personal Insight**

This complexity is best observed in Shanghai, moments before the before 'zero hour,' the city gleams with unnatural order, its skyline establishes a visual code of unity, fluttering not only from administrative. Simultaneously, the metropolis bifurcates: while tourists, iconic throngs of visitors, residential districts and university quarters retain dichotomy between official celebration and private jubilation contemporary China. To fully grasp why this single day event's significance to consumer sentiment—one must examine its historical moment on Tiananmen Square.

### Identity: 5231

We connect the 52nd parallel (Warsaw, Poland) with the 31st parallel (Shanghai, China), building a bridge based not on headlines, but on contextual understanding. Because what is unspoken is often more important than what is written.

In Mandarin Chinese, the sequence 5-2-3-1 is a homophone for Wú Ài Shēn Yì (吾爱深意) - "We cherish deep meaning".

#### 01 Source Intelligence

We are physically present at the source of innovation. Operating within Shanghai's academic and business ecosystem (Fudan University) allows us to observe economic shifts from a participant's perspective, capturing trends invisible to outside observers.

#### 02 Deep Context

We analyze China as a cohesive system of interconnected vessels: from demographic pressure and cultural nuances (Guoxi) to central regulations. We translate local specificity into European strategic language.

# Context And Clarity

The architecture of understanding between Warsaw and Shanghai.

## The 5231 Standard

We believe that genuine understanding — business, cultural, and social — is the foundation of every meaningful relationship.

The 5231 Project provides strategic context for Europe-China relations. We combine macroeconomic, technological, and cultural analysis with a "boots on the ground" perspective from Shanghai.

Our mission is to cut through informational noise and deliver clear coordinates that enable decisions based on insight not opinion.

### The Founder

**Maksymilian Szabat**

Based in Shanghai 5231 Strategy Architect, innovation strategy researcher and Chinese Government Scholarship recipient at Fudan University in Shanghai one of China's top three elite institutions.

He focuses on evaluating development policies, benchmarking Polish aspirations against China's execution effectiveness. Operating within the local academic system, he deconstructs China's long-term plans and translates them into the language of European business.

He gained experience not only in lecture halls but through the practice of economic diplomacy at the Polish-Asian Chamber of Commerce under the guidance of former deputy prime minister Janusz Plichociński. Operating at the convergence of two systems, his goal is to translate "System China" into tangible value for European decision-makers.

## Music, treated as architecture.

Structured music systems for gatherings, venues and brand spaces.  
Delivered to run beautifully - no live mixing required.

### Designed Flow

Most spaces don't fail because of bad music. They fail because the energy isn't controlled.

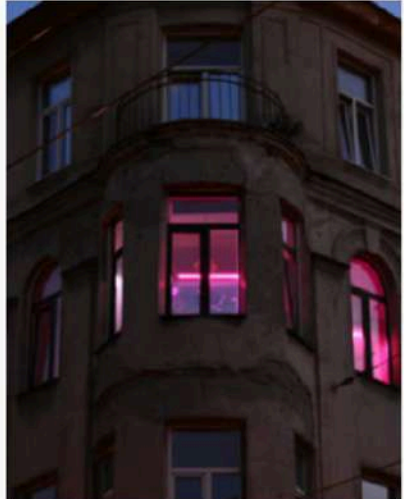

- peaks too early
- drops at the wrong time
- never fully locks in

That's what Overtone fixes.

We design music systems that control the room - from arrival through to late evening.

- No live mixing.
- No playlist guesswork.
- No energy gaps.

Intentional from the start. Effortless once it begins.

### Pricing

Every project is structured around the space it serves.  
Defined by context. Priced by scope.

overTone Approach Press Play Modular Pricing Discuss a space →

### Approach

Music, treated as a system.  
Designed to guide how a space feels, moves and evolves.

### How Pricing Works

Overtone is priced as a design service - not as access to music.  
Pricing reflects the structure, adaptability and collaboration involved.  
Scope is defined once the space and its rhythms are understood.

### The Belief

It's about timing.  
Like lighting.  
Like materials.  
Like pace.  
Sound shapes how a space settles, builds and releases.

### Engagement Structure

Three ways to structure sound based on how you want to use the space.

| Press Play   | Modular   |
|--|---|
| <b>From \$150</b>  | <b>From \$450</b>   |
| A complete soundtrack designed for a defined setting.  | A structured sound system that adapts as the space shifts.  |
| Ideal for private gatherings and clearly defined environments.   | Designed for venues that move through different energies over time.   |
| <ul style="list-style-type: none"> <li>Structured sequence</li> <li>Defined emotional arc</li> <li>Ready to deploy</li> <li>Repeatable</li> <li>Designed to be used</li> <li>Simple to manage</li> </ul> | <ul style="list-style-type: none"> <li>Clear motion</li> <li>Transition logic</li> <li>Development framework</li> <li>Operational simplicity</li> <li>Control over</li> <li>Clear workflow</li> </ul> |
| <b>From \$120</b>  | <b>From \$250</b>   |

Rooms don't change. Energy does.

### The Method

This isn't about taste. It's about timing.

- When to sustain a groove.
- When to lift tempo and texture.
- When to pull back and create space.
- When to hit track and create space.
- When to hit tempo and texture.
- When to sustain a groove.

It's about timing.
